Save Energy in 2026

Keep your momentum going into the new year with these energy-saving resolutions.

- Adjust your thermostat to save energy late at night or when no one is home.
- Have your heating and cooling system inspected by a qualified professional.
- Change your furnace filter regularly according to the manufacturer's instructions.
- Switch to energy-efficient LED lights and turn them off when you're the last to leave a room.
- Take shorter showers and fix water leaks quickly.

These simple resolutions are a great way to start living a more energy-efficient lifestyle this year and every year.
