September 2026

SCHOOL BUS SaFeTy TIPS

School buses are among the safest vehicles on the road — but the greatest risk comes when children are getting on or off the bus. Whether you're a driver, parent or student, knowing these safety tips will help keep everyone safe.

For drivers:

- **Slow down:** Reduce speed in school zones and near bus stops.
- **Keep your distance:** Stay back at least 10 feet from a school bus — this is the most dangerous area for children.
- **Know the signals:**
 - **Yellow flashing lights: bus is preparing to stop — slow down.
 - **Red flashing lights + stop arm: bus is loading/unloading — stop and wait until the bus moves again.
 - **Never pass a stopped bus on an undivided road — it's illegal in most states.
- **Stay alert:** Watch for kids who may unexpectedly enter the road, especially near bus stops.
- **Respect the zone:** When flashers are blinking in a school zone, stop for pedestrians at crosswalks and take extra care to look for children near playgrounds, parks and residential areas.

For parents:

Teach your child to arrive at the bus stop at least 5 minutes early, and

how to play it **SAFE:**

Stay at least ten feet — five giant steps — from the curb.

Always wait for the bus to stop and the driver to signal before boarding.

Face forward and buckle up if seat belts are available.

Exit carefully, look both ways and cross in front of the bus — never behind. Make eye contact with the driver before crossing.
